

METALOG training tools Workshop

See. Hear. Feel.

METALOG[®] tools are multifaceted interaction activities and learning projects for indoor and outdoor use. Their simplicity and powerful effect both engaging and fun, they engage all of the learner's senses allowing the user to really experience learning topics such as communication, leadership, team dynamics and roles, etc.

During the two days (bookings for individual days also possible), you will experience a wide range of METALOG[®] tools and understand their value in the learning situation.

Target group:

Trainers, consultants, educators and teachers, HR developers, inquisitive people interested in activity-based and experiential learning and its application with groups.

What you can look forward to:

- First hand experience of the METALOG[®] tools, and explore as a group how to apply the tools in your own practice.
- Develop a robust methodology to integrate activity-based learning into your seminars and trainings.
- Developing a pool of learning metaphors with which to conduct targeted learning projects.

The benefits to your practice:

- Your workshops and training sessions will be more impactful and high energy.
- Your work as trainer will get easier because you will have methods at your command that get the delegates themselves to evaluate and appraise what they have learned.
- Your work as trainer will have a longer-lasting effect because the methods you will have at your disposal allow your delegates to transfer what they have learned to their daily lives.

Workshop topics:

- The learning project as metaphor
- Outcomes-based staging
- Framing interventions
- Evaluation of activities
- The Three-Phase Transition Model

The following METALOG[®] tools will be demonstrated in the workshop:

Basic Workshop (Day 1)

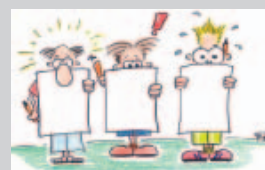

The sphere, Team Navigator, Team², CommuniCARDS, SysTEAMing, Leonardo's Bridge, Tower of Power, Pipeline.

Advanced Workshop (day 2)

Pathfinder, CultuRallye, Wordplay, Chain Reaction and more. Also shown different methods of approaches valuation, for example: Emotion Cards, Feedback balls and U scale.

During the workshops, the application of the METALOG[®] tools to a wide range of topics will be explained, including:

Team development, building trust, leadership communication, project management, communication interfaces, communication strategies in various contexts, feedback, self organisation, systemic coaching, distribution of work, quality of work, interdependency between individual tasks in the team and the overall goal, playful activation, and many others.

Price of the workshops per day:
€140.00 plus VAT

Early Bird booking 4 weeks before the date: **€125.00** plus VAT per day

Abstract on METALOG® tools

Project Implementation on the ground – effective new tools for local team building and Learning

For Team Leaders, Training Specialists, Learning Networkers and all interested in experience oriented learning and effective teambuilding

- How can project implementation teams develop an action plan that really works?
- How to get a diverse team to fully support a project implementation manager?
- How to intervene effectively when conflicts limit communication?

In these hands-on interaction tasks you explore how teams 'really tick' and how you can help foster local leadership. These tools focus on effective project management through identity and self-esteem, team building, conflict mediation, change management, creative problem solving and effective communication.

You will be introduced to a range of simple, yet ingenious training tools, learn about how interaction metaphors are setting emotional focus for the real world engines of growth, and how lasting learning generates development impact.
